Advanced Car Lighting Workshop

By Professionals, For Professionals

March 2 and 3, 2013*

Toronto, Canada

Price: \$700.00 for CSC members

\$875.00 for non-members

Continental Breakfast, snacks and lunch will be provided

This two-day advanced car lighting workshop includes demonstrations by full CSC members that are actively engaged shooting high end Commercials, Features, TV Movies and Episodic Television.

These DOPs will be sharing their vast knowledge of lighting as well as on-set experience to enable the participants to successfully produce world class images.

Hands-on means experience

On the first day they will be teaching various methods of lighting a full-size car in a studio environment.

On the second day each group of participants will be expected to light a scale model car under the supervision of a full CSC member.

Cameras, lighting and grip will be provided to record the lighting set-ups. A gaffer and an electric will be on hand to assist with the set-ups.

Participants are encouraged to bring a light meter for the practical exercises.

Instructors: T.B.A. (closer to the date)
